Welcome to Learning VCarve Pro software offered by the SCW Metal Club!

Thank you for your request to be included in the VCarve Pro email updates. We have received an overwhelming response from club members about this software program and appreciate your interest to learn more about it.

In order to bring you up to date on what the team has provided about VCarve Pro so far, you will receive separate emails covering the following topics. Please note that VCarve Pro emails will be issued from the 'education@scwmetalclub.com' email address, so make sure this is coming to your email inbox and not a spam folder, etc.

1. Introduction Letter: What You Need to Know to Get Started with VCarve Pro
2. Instructions to Login and Install VCarve Pro (several online tutorials)
3. Email #1: Getting started with VCarve Pro
4. Email #2: Cleaning Up & Converting DXF Files
5. Email #3: Eliminating Unnecessary Points from Vectors
6. Email #4: Command Icons & Keyboard Short Sheets
7. Email #5: Blase / Laguna use policy Oct. 09, 2023

Joe Faraone (Club Treasurer) is available to assist you and answer questions as you move forward in this learning process. Questions can be directed to them at 'education@scwmetalclub.com' and they will contact you directly as requested.

We hope you enjoy learning more about this powerful VCarve Pro software package. Let us know if you have any feedback or suggestions along the way.

Stay healthy and keep learning! VCarve Pro Team
SCW Metal Club.
